SUMMARY

QA Automation Engineer with hands-on experience in Playwright (Java), API testing, and CI/CD integration. Experienced in building automation frameworks, validating APIs, and executing end-to-end testing across web applications. Skilled in reducing manual testing effort through automation and improving test efficiency. Strong understanding of Agile methodologies, defect tracking, and cross-functional collaboration.

EXPERIENCE

Associate Quality Assurance Engineer I

Sep 2025 – Present

Techdome Solutions Private Limited

- Performed functional, regression, and integration testing across web applications ensuring high-quality releases
- Identified, reported, and tracked defects using Jira, collaborating closely with developers for timely resolution
- Validated APIs using Postman and Python requests, ensuring request/response accuracy and data integrity
- Worked in Agile environment, actively participating in sprint testing, validation, and release cycles
- Built and maintained Playwright (Java) automation suite for core UI workflows, contributing to CI/CD pipeline integration

SKILLS

Testing: Manual (Functional, Smoke, Integration, System), Automation (Selenium WebDriver – Python & Java, Playwright – Java, BDD – Behave/Cucumber, Pytest, TestNG), API (Postman, Python Requests), Database (MySQL)

Tools: GitHub, Jenkins, Jira, ClickUp, Postman, MS Excel

Languages: Python, Java

Methodology: Agile

PROJECTS

Sparrow API Tool – Manual & Automation

Sep – Dec 2025

[Jira, GitHub, Playwright, Java, TestNG]

- Performed end-to-end manual testing of the Sparrow API Tool, validating API request creation, parameter handling, authentication modes, and response validation
- Executed positive and negative test flows (REST, GraphQL, WebSocket) and reported functional/UI defects in Jira
- Automated API UI workflows using Java with Playwright and implemented a TestNG-based framework for structured test execution
- Developed reusable page/action classes and assertion-based validations for request/response sections to ensure functional accuracy
- Collaborated with developers and testers to enhance overall product quality and testing coverage

Wizlo Web Application – Manual & Automation

Dec 2025 – Present

[Playwright, Java, TestNG, Jira, GitHub]

- Automated end-to-end scenarios including form validations, dropdown selections, dynamic table interactions, and error handling
- Performed functional and regression testing across key workflows, logging defects in Jira and validating fixes during retesting cycles
- Validated backend APIs for user stories using request/response analysis, status code checks, and payload verification
- Integrated automated test suites into CI/CD pipelines to enable scheduled and on-demand execution, reducing manual regression effort
- Designed reusable test utilities and page objects to improve maintainability and support scalable automation across modules

Automation Testing of E-Commerce Site

Jun – Aug 2025

[Python, Selenium, Pytest, Allure, GitHub, Jenkins]

- Developed end-to-end automation scripts for login, product selection, cart, and order workflows using Python, Selenium, and Pytest
- Implemented Page Object Model (POM) for reusable and maintainable test scripts
- Integrated GitHub for version control and Jenkins for CI/CD to automatically trigger tests and generate HTML and Allure reports

API Automation Suite

Mar – May 2025

[Python, Pytest, Requests, Allure, GitHub]

- Built an API automation framework to validate multiple endpoints (products, brands, user management) using Pytest and Requests with dynamic test data
- Automated reporting with Allure and maintained Excel-based test documentation for test traceability
- Streamlined execution with a batch script and version-controlled the suite on GitHub

EDUCATION

B.Tech – Computer Science	Jan 2024
CMR Technical Campus CGPA: 6.13 / 10	
Intermediate – MPC	Apr 2018
Sri Chaitanya Junior College 68.4%	
SSC	May 2016
St. Alphonsa's High School CGPA: 7.2 / 10	

CERTIFICATIONS

API Testing, Database Validation, and BDD using Python – Udemy	2025
Selenium WebDriver with Python – Udemy	2025
Software Testing – SSSRPL	2024
